

ENROLMENT AGREEMENT

ALL PROSPECTIVE AND RE-ENROLLING STUDENTS MUST READ THIS CAREFULLY PRIOR TO ENROLMENT

A condition for enrolment into any year of the course is that a student reads the Administrative Procedures and Course Regulations section in the School Handbook/Diary and has a thorough understanding of the School rules and procedures, as outlined in the Handbook and in the 'Procedures Register' which is kept in the Library.

It is each student's responsibility to check the Administration Notice Boards and the intranet for any important announcements. This should be done on a regular basis, since these boards are the main communication link between Administration and the student body.

When new administrative procedures are initiated, they will be posted on the Administration Notice Boards for a period of not less than 14 days, after which time they will be added to the 'Procedures Register' in the Library. It is each student's responsibility to ensure that at all times during their course he/she is familiar with all School procedures, so regular inspection of the 'Procedures Register' is required.

Since agreement to accept responsibility to remain familiar with current procedures is a condition of entry to the course, Administration cannot accept an unfamiliarity with procedures as an excuse for failure to comply with them.

I have read the above and agree to familiarise myself with the School rules and procedures, course regulations and progression rules in the School Handbook/Diary and 'Procedures Register'. I agree to accept all of the above as a condition of enrolment in all Degree courses at the Southern School of Natural Therapies.
